

# Hello... I'm Kota Bhaswanth

Visionary – Gen AI Engineer – Art Director

I am a multi-disciplinary professional with expertise in sustainable agriculture, AI-driven innovation, and creative leadership. My work spans across tech, business writing, content development, and environmental impact, where I strive to integrate cutting-edge solutions to real-world problems.

In addition to my entrepreneurial vision, I specialize in content creation, business writing, and concept development. As an Art Director, I lead creative teams, designing compelling narratives and brand strategies that blend artistry with business objectives to deliver impactful, results-driven content.
